#### **EMAIL POLICY**

In order to comply with HIPPA rules with regards to privacy and confidential communication, I am instituting an email policy. I will only be initiating or responding to client emails through an encrypted email server, Hushmail.

• When you receive an email from me, you will see the following in the text box:

sri@sherylrjacobs.com has sent you a secure email using Hushmail.

• You will then need to click on the secure link from Hushmail

To read a sample , please visit the following web page: https://www.hushmail.com/express/XY9CSEND

- You will then be asked to provide a unique password/passphrase that only you will know.
- Once you type in your "Password/Passphrase", you will be able to read the email.

PLEASE KEEP THIS PASSWORD/PASSPHRASE AVAILABLE FOR FURTHER USE AS FUTURE EMAILS WILL ALSO BE SENT THROUGH ENCRYPTED EMAIL.

- If you want to respond to my email, open the email and hit reply and your reply will be encrypted back to me.
- The ability to reply to a specific message is only good for two weeks from opening the email, so please copy any needed information onto your desktop or print off a hard copy.
- If you want to initiate an encrypted email to me, you can set up a free Hushmail account
  (www.hushmail.com) and use that to send me an email. If you have a Hushmail account, you will
  not need to enter a password to open my encrypted email. Other email service providers are also
  available to encrypt email.
- Alternatively, you can send a request to me with the subject line "please send me an encrypted email" and I will send you an encrypted email that you can then send an encrypted response back to me.

I have read these instructions and understand that Dr. Sheryl Jacobs will only reply to emails about clients through this encrypted email account. This includes emails that come from collateral sources such as schools, other clinicians or any other source about me (or my child). I have also been advised that should I choose to use email to communicate with Sheryl R. Jacobs, Ph.D. I should use an encrypted email server in order to protect my PHI, or Protected Health Information. I understand that information that is put into an email and not encrypted does not protect my confidentiality.
